- L.A. City's Small Business Microloan Program

Check your Business Insurance:

You may have business interruption coverage, which helps protect against lost income after a covered peril.

Consult your Bank: Consult your bank to confirm financial services available, including emergency access to capital, small business loans and waivers for late fees.

Federal Income Tax Filing and Payment Deadline Extension: The federal tax return filing deadline is now July 15, 2020. For tax payments of up to \$10 million, the IRS has also extended the deadline for both individuals and businesses to July 15, 2020. Estimated tax payments for 2020 originally due on April 15 will now be due on July 15.

Check with the CA State Tax Agency to find out if your business has more time to file or more time to pay state and local taxes this year as a result of the Coronavirus. Several states have already aligned their tax filing and payment deadlines with the new federal deadline. States also may waive or reduce penalties on late tax payments.
